

# Let dpe Systems manage your IT so you can focus on your core business

Whether you want to reduce IT costs or just stop investing so much time and effort into managing your technology, dpe Systems' Managed IT Services can help.

## ARE THESE YOUR CHALLENGES?

Although we're able to help organizations overcome many challenges, we find that organizations experiencing challenges like these benefit the most from our Managed IT Services.

Recruiting, training, and paying a dedicated in-house IT staff	Consistent issues with critical IT services that support the business
Data and communication network downtime that affects customers	Difficulty remaining up-to-date with maintenance and patching
Finding ways to increase the value of IT to the business	Keeping IT costs at a consistent, affordable level

**If you answered yes to any of these, dpe can help you change that.**

## WE PROVIDE COMPREHENSIVE SERVICE CAPABILITIES ACROSS THE IT LIFECYCLE

As an extension of your team or by completely taking over management, we can help you design, deploy, and support your entire IT environment.

<h3>IT OUTSOURCING</h3> <p>We provide full or part-time IT expertise in any capacity, from strategy through support</p>	<h3>REMOTE NETWORK MONITORING</h3> <p>We provide 24/7 monitoring of your critical network infrastructure and devices</p>	<h3>MANAGED NETWORK SERVICES</h3> <p>We manage your internal/external connectivity, including data and voice networks</p>
<h3>HARDWARE MAINTENANCE</h3> <p>We provide flexible maintenance and repair services to mitigate expensive downtime</p>	<h3>CLOUD INTEGRATION</h3> <p>We simplify your transition to the cloud for backup, disaster recovery, and hosted applications</p>	<h3>CYBERSECURITY SERVICES</h3> <p>We can build, manage, and advise upon your cybersecurity policies and infrastructure</p>

## OUR SERVICES ENABLE YOU TO:

<p>Improve mission-critical system performance</p>	<p>Increase network efficiency</p>	<p>Recover faster from network issues</p>
<p>Lower IT and operational costs</p>	<p>Improve productivity through less downtime</p>	

## WE CAN ALSO ENSURE YOU STAY CURRENT WITH TECHNOLOGY

Along with supporting any component of your IT environment, we can help you procure and incorporate the latest technology from Cisco.

- CORE NETWORKING
- NETWORK & ENDPOINT SECURITY
- DATA CENTER & CLOUD
- WIRELESS
- UNIFIED COMMUNICATIONS

## THE dpe DIFFERENCE

With over 27 years of experience, we've helped hundreds of organizations in the Puget Sound area improve the impact that technology has on their business.

<h3>OPTIONS FOR EVERYONE</h3> <p>Nationwide service capabilities and solutions for SMB to enterprise companies</p>	<h3>PROVEN ROI</h3> <p>We provide a more flexible and cost-effective solution than hiring full-time resources</p>	<h3>PRIDE IN EXCELLENCE</h3> <p>Our teams are experienced, dependable, and driven to create customers for life</p>
